

Jail Trump (JTRUMP) — Official Whitepaper

Introduction

Jail Trump (JTRUMP) is a community-driven meme token launched on the Solana blockchain. The project combines internet culture, satire, and decentralized finance into a fast, transparent, and community-owned digital asset. Built on Solana, JTRUMP benefits from high transaction speed, very low fees, and a rapidly expanding decentralized ecosystem.

Vision

The vision of JTRUMP is to create a widely recognized meme-driven digital asset that encourages community participation, promotes decentralized ownership, rewards long-term holders, and grows through social momentum and internet culture.

Solana Advantage

Solana provides fast transaction processing, extremely low network fees, and scalability. This allows JTRUMP holders to trade and transfer tokens quickly while keeping costs minimal.
